

PAYA.

Welcome to PAYA

On Tioman Island in Southeast Asia is one most beautiful travel destinations in the world, PAYA beach. This beautiful tropical location with its calming ocean breezes and luscious exotic fruits inspired the creation of PAYA® personal care cosmetics.

For centuries, the native people of the tropics have incorporated nutritious super-fruits into their diet, including crushing them to extract and drink the juices. After crushing fruit with their hands, the women found that their skin was amazingly soft and smooth. Modern science has isolated the unique nutrients in these exotic fruits, and we have used them as the foundation for this lush cosmetics line.

Modern, Affordable Luxury with a Green Conscience.

Paya is made from the best essential ingredients including:

- Papaya fruit extract – softening, moisturizing, historically used in wound care to promote healing
- Citrus extract blend of grapefruit, orange peel extract, tangerine peel extract – exfoliators, great for cleansing scalp and skin
- Lavender extract – antioxidant and conditioning properties, particularly for the skin
- Grape seed extract – a nourishment extract, high in essential fatty acids and vitamin E

Does not contain: Parabens, banned phthalates, mineral oil, paraffin, petroleum products, silicone oils, diethanolamine, or DMDM hydantoin preservatives.

PAYA brightens any guestroom with its vivid, stylish packaging and luscious tropical scent.
