

Stainless Steel Pizza Prep Overshelf

1. Lay out top deck of the overshelf on a flat surface.

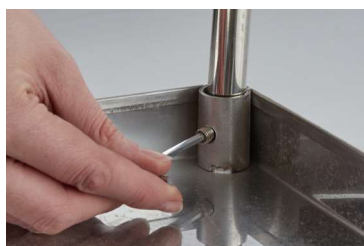

2. Place the longer legs in the front of the deck.

3. Place the shorter legs in the back of the deck.

4. Use the set screws and fasten the legs in place.

5. This is how it should look after legs are in place:

(Steps 6-8 are for double overshelf) (For single overshelf, skip to step 9)

6. Take the second deck and place over the 4 legs.

7. Slide the deck to desired height.

8. Use the set screws to lock the deck in place.

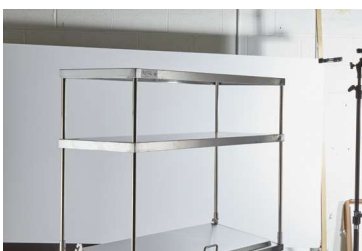

9. Take the “L” shaped brackets and place on the legs. “L” facing the outside of the shelf.

10. Use the set screws and lock the brackets in place.

11. Once assembled it should look like this:

12. Place shelf on unit. Make sure surfaces are level.

13. Use 4 screws (not provided) and fasten in place. Use pre-drilled holes on the “L” brackets for spacing.

14. Check to make sure all screws are tight. This is how it should look when fully assembled:
