

# Assembly Instructions — Blow-Molded Plastic Top Activity Leg

*Leg Designed for use with Blow-Mold Plastic Top Activity Tables.*

## Tools Required:

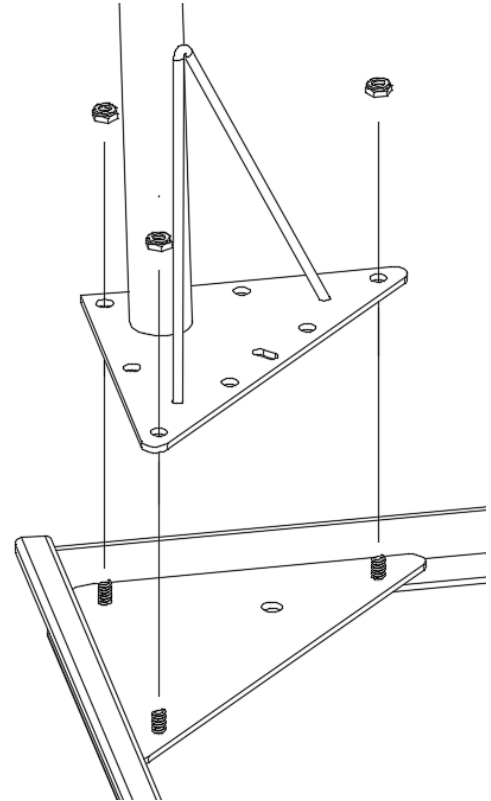

- 7/16" Socket or Wrench

## Step 1

Place the table topside down on a clean, non scratching surface.

## Step 2

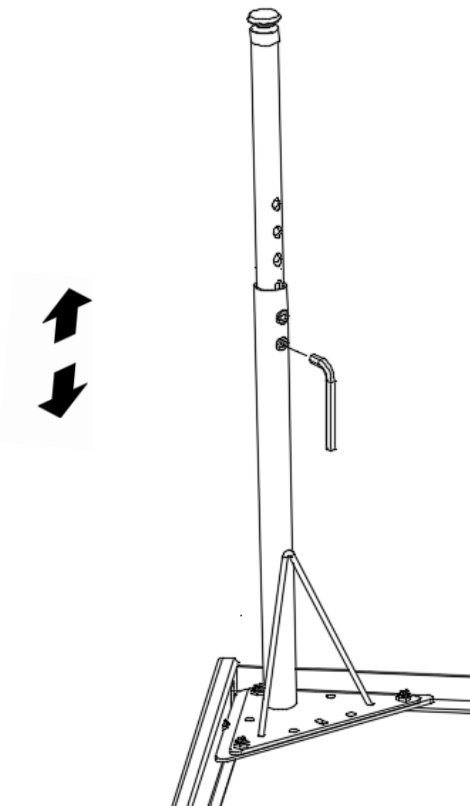

Install Activity Leg by aligning the three outside holes on the leg base with the three corresponding thread studs on the leg plate assembly. Install lock nuts using wrench or socket and tighten fully. Repeat for remaining legs.

## Step 3

Adjust each leg to desired height using the provided Hex wrench.

Using two people, turn the table upright.
