

## REUSABLE ANSELL PRODUCTS TO ADDRESS PPE SHORTAGES EXTENDED DURABILITY FOR CHEMICAL PROTECTION

Ansell has reusable solutions that keep workers safe from chemical hazards such as contamination, sprays or splashes. With ongoing PPE supply shortages, reusable glove options provide similar protection and performance levels to meet your needs.

### AlphaTec® Solvex® 37-175

- Rugged chemical resistance against a variety of chemical hazards
- Superior snag, puncture and abrasion resistance
- Ideal for use against chemical, physical and biological hazards like viruses and micro-organisms
- Vend offering available

#### Applications:

- Handling rough machined metal parts
- Equipment repair & maintenance
- Painting or cleaning tools or robots

### AlphaTec® Solvex® 37-155

- Chemical resistance and strength in dry or wet environments
- Superb comfort with abrasion resistance
- FDA Compliant and exceptional protection making it ideal for sanitation
- Vend offering available

#### Applications:

- Automotive
- Machinery and Equipment
- Chemical

### AlphaTec® Solvex® 37-676

- Rugged chemical resistance for wet or dry work environments
- Latex-free formulation reduces risk of Type I allergies
- Ideal for use against chemical, physical and biological hazards like viruses and micro-organisms
- Vend offering available

#### Applications:

- Delivery of parts to production line
- Forging operations
- General pumping work

### AlphaTec® 37-300 / 37-320

- Nitrile protects against light acids, greases, oils and liquids
- FDA Compliant and exceptional protection making it ideal for sanitation
- Latex-free formulation reduces risk of Type I allergies

#### Applications:

- Fruit processing
- Fruit and vegetable
- Poultry processing

### AlphaTec® 37-200 / 37-210

- Unflocked for enhanced comfort
- 100% latex free to reduce food contamination risk
- Compliant with FDA food handling requirements

#### Applications:

- Dairy processing
- Fruit and vegetable processing
- Poultry processing

## REUSABLE ANSELL PRODUCTS TO ADDRESS PPE SHORTAGES EXTENDED DURABILITY FOR CHEMICAL PROTECTION

### AlphaTec® 37-310

- Nitrile protects against light acids, greases, oils and liquids
- FDA Compliant and exceptional protection making it ideal for sanitation
- Latex-free formulation reduces risk of Type I allergies

#### Applications:

- Food Processing
- Janitorial / Sanitation

### AlphaTec® 58-535B

- Unrivalled combination of chemical resistance, confident grip, and a comfortable inner lining makes these gloves ideal for outdoor application
- 58-530B with black acrylic liner are recommended for outdoor applications

#### Applications:

- Body painting including surface inspection
- Applying sealers, touching up
- Press injection molding
