LAVEX™

Wall-Mount
Sanitary Napkin Receptacle
Use & Care Instructions

11/2026

Hazard Statements

BIO-HAZARD – To prevent personal injury.

- **CAUTION:** Limit exposure to bodily fluid by using gloves and only interacting with the trash bag by pulling it out from the bottom.

Initial Setup

Inspect the Packaging: Examine the receptacle's packaging for any signs of damage that may have occurred during shipping.

Intended Use: Use only for the sanitary disposal of feminine hygiene products. Any other use is unsafe and voids manufacturer's responsibility.

Unboxing: Open the packaging with care.

- Do not press a box cutter or knife through the box, as it may damage the receptacle.
- Ensure you do not damage the receptacle or its components when removing it from the box.
- If any damage is present, contact customer service immediately.

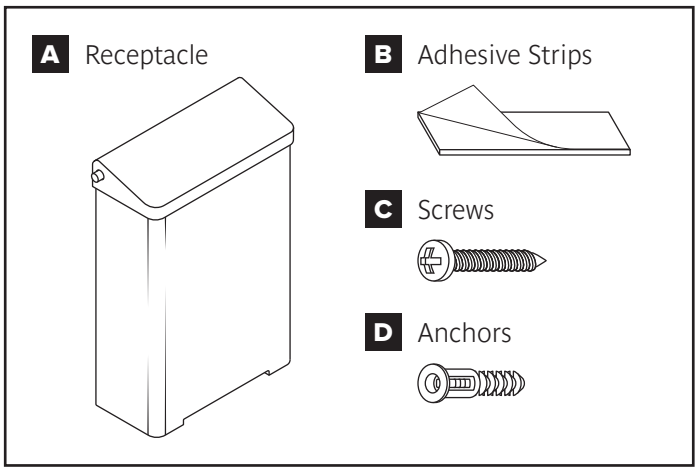

Verify Contents: Confirm the mounting hardware and adhesive strips are included.

Installation

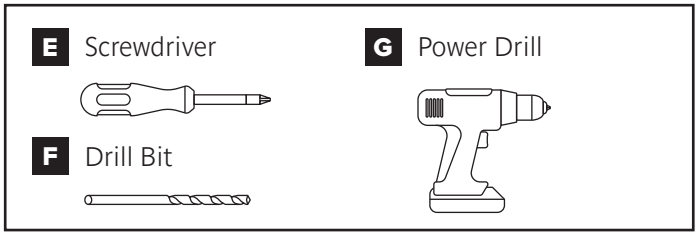

1. **Manual Review:** Read through the manual in its entirety.
2. **Placement:** Mount the receptacle where patrons can easily access it and where it stays clear of foot traffic.
   NOTE: For optimum accessibility, a receptacle can be mounted in each stall.
3. **Find Desired Location:** Hold the product against the wall where it will be mounted. Use the pre-drilled holes on the back of the receptacle to mark holes for installation (Fig. 1).
4. **Drill Pilot Holes:** Use a drill bit to drill pilot holes in each of the previously marked locations (Fig. 2).
5. **Install Mounting Hardware:** Using hardware rated for the mounting surface, attach screws to the wall, leaving a 1/4" gap from the wall (Fig. 3). If mounting on drywall, use drywall anchors as shown (Fig. 4).
6. **Hang the Receptacle:** Hang the unit by lining up the pre-drilled holes on the back of the receptacle with the installed mounting hardware (Fig. 5). Hand-tighten the screws to secure the unit (Fig. 6).

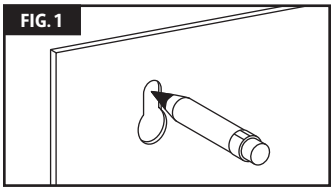

Parts List

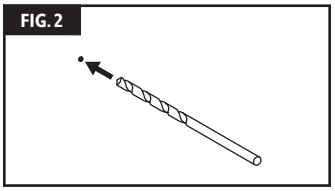

Included

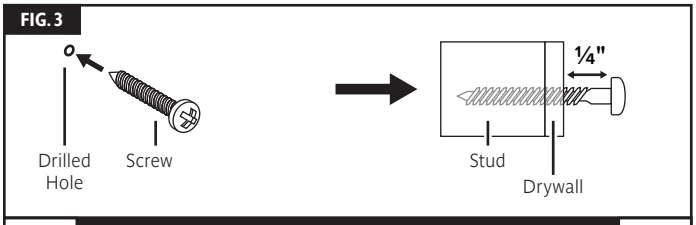

Tools (Not Included)

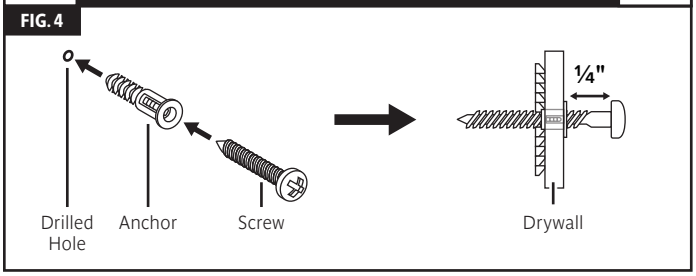

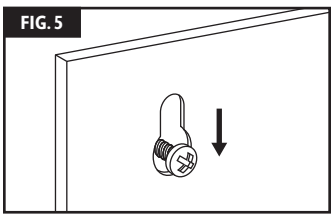

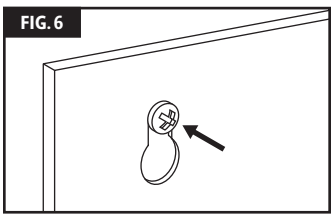

WARNING: Hardware provided is not appropriate for all wall types. Different hardware is required for concrete, brick, metal, etc.

Cleaning

CAUTION: Never use anything that might scratch the surface, such as a wire brush or scrubbing sponge.

Wipe Spills Immediately: Wipe up spills and splashes right away using a damp (not wet) soft cloth.

Dry the Surface: Follow with a dry soft cloth.

Use Mild Soap if Needed: Use only a mild, non-abrasive soap, such as dishwashing liquid, on a damp, soft cloth.

Clean Regularly: Wipe the unit down regularly with a soft, damp cloth to keep the finish clean and vibrant.

Open the Bag: Expand the bag by using your hand to open it.

Open the Cover: Lift the cover to install a sanitary bag.

Empty when Full: Remove when full by lifting the cover and pulling from the bottom (Fig. 7). Insert a new bag (Fig. 8).
