

# Choosing your **electricSchwank** system

**STEP 1** | Measure the dimensions and mounting heights of the area you want to heat.

**STEP 2** | Select the heater[s] that will work both functionally and aesthetically for your space. Consider heater size, quantity, color and mounting options.

**STEP 3** | Choose the control option that works best for your space, needs and budget.

## patioSchwank

**Need assistance?** We can walk you through the process of selecting the patioSchwank heating system that's right for you. To learn more, or find a distributor near you, please contact us.

**electricSchwank Heaters** — WIDTH: 8-3/16"

**ES** = SINGLE ELEMENT HEATERS

**ESD** = DUAL ELEMENT HEATERS

**Note:** Indoor or well-protected environments will generally exceed average coverage. Heaters may provide less than average coverage in extremely cold or windy conditions.
