1 Gal Soft Serve Mix

Available in:

- Vanilla
- Chocolate

Shelf Life	24 Months
Case Pack	4 Units
Case Dimensions	12.75" x 12.75" x 11"
Case Per Pallet	48

Instructions

Thaw the mix in a refrigerator for 2-3 days. Shake vigorously before use, then pour the entire contents into a soft serve machine set to a temperature of 20-22°F. Use within 14 days of thawing.

Note: Natural separation or gelation may occur; this does not impact the product's functionality.

3 Gal Tub

Available in:

- Vanilla

Shelf Life	18 Months
Case Pack	1 Unit
Case Dimensions	9.72" x 9.72" x 11.87"
Case Per Pallet	100

Instructions

Keep frozen at 0°F or below. For best scoopability and texture, temper product to approximately 10°F before service.

Milkshake Tip: Eclipse performs exceptionally well with water instead of milk, allowing operators to lower costs and streamline back-of-house ingredients without compromising creaminess.

2.5 Gal Dessert Mix

Available in:

- Plain

Shelf Life	24 Months
Case Pack	2 Units
Case Dimensions	12.75" x 12.75" x 11"
Case Per Pallet	48

Instructions

Thaw under refrigeration for 2-3 days. Shake well before opening and re-emulsify with a hand blender or similar high-powered mixer (a whisk is not sufficient). Flavor to taste, starting with the same amounts used in dairy mixes and adjusting as needed. For best texture, use extracts or dry ingredients, as high-moisture flavorings may affect the finished product.
