

NOBLE CHEMICAL SIERRA INSTANT FLOOR FINISH EMULSIFIER

FOR USE ON:

Vinyl tile
Vinyl asbestos
Asphalt tile
Linoleum
Rubber tile
Concrete
Flagstone
Terrazzo
Ceramic tile

DESCRIPTION:

This instant floor finish emulsifier is a very aggressive formula designed for easy removal of heavy build-ups and excessively burnished finishes. It may be used as a no-scrub stripper or with a conventional floor machine and pad depending on the concentration of the product and the condition of the floor.

DIRECTIONS:

1. Sweep or dust mop the floor to remove any debris.
2. Dilute from 1:3 to 1:4 (32 oz. to 9 oz./gal) with cold or warm water, depending on age and build-up of finish. Do not use hot water.
3. Apply liberally with a mop to an area small enough so as not to allow the product to dry. Be sure to completely cover the floor to the baseboards.
4. After 3 to 5 minutes, agitate the wet section with a mop or machine scrub. Pick up solution using a mop, wet vac, or automatic scrubber.
5. Rinse thoroughly with clear water to remove residue as necessary.

Note: Asphalt tile and rubber flooring could be affected by stripping solutions in high concentrations with hot water. Always test floor before proceeding.
