

15" STEEL SURFACE CLEANER

NOZZLE CLEANING TOOL INCLUDED

CONNECTION

Industry standard
1/4" QC nozzle
connection

CUTDOWN CLEANING TIME

10x more coverage
than a standard nozzle

PRESSURE

Recommended
min 2200 PSI
up to a
max of 3700 PSI

COLD WATER USE

Max temperature
of 140°F

3700 PSI

1/4" nozzle connection works with
most pressure washer wands

Dual high pressure rotating jets provide
quick, streak-free cleaning

Powder coated steel construction and stainless steel
nozzles resist corrosion and provide durability

For best results, use a slow, steady pace while applying a little
bit of pressure to maintain an even distance to the ground
