

AN EFFICIENT SYSTEM TO OPTIMIZE
PRODUCTIVITY AND SALES.

CLEAR SOLUTIONS FOR COST-EFFECTIVE DISPLAYS.

The simple answer to multiple retail challenges –

Improve presentation and boost profits with SpaceGrid® II pusher systems from Retail Space Solutions®.

Ensure attractive, organized and front-faced displays and a new-store appearance all day long. The clear lens keeps products visible which leads to quicker buying decisions. The design of the pusher provides just the right tension to hold products securely in place while speeding up restocking and improving labor efficiency. Pullout trays can display products of different shapes and sizes, while maximizing packout space.

SpaceGrid® II pusher systems:

- Keep products front-faced and organized from store open to close
- Drive quick buying decisions
- Stock effortlessly with easy-to-use pull out tray
- Requires minimal conditioning

Increased product facings lead to improved merchandising experience.

3) Choose your Tray Width:

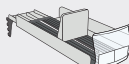

Narrow

3.6" - 4.75"
(VLP, VAP)

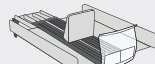

Standard

5" - 8"
(VLP, VAP, FF)

Wide

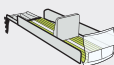

8" - 11"
(VLP, VAP, FF)

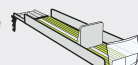

4) Choose your Tray Depth:

Multiple depth options to achieve maximum packout

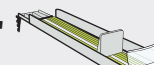

14"

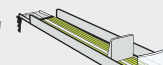

16"

18"

20"

Note: Not all configurations may be stocked

WITH AND WITHOUT
PUSHER SYSTEM.

Front-faced products create new store feel every day

Pusher brings product to the front to create the feel of a new store opening every day, making purchasing decisions easier for shoppers.

Grid mounting system increases product facings

SpaceGrid® helps to add facings by more efficiently utilizing space vertically.

Pull-out trays for easy restocking

Reduce restocking time by simply pushing the button under the tray, pulling it forward and quickly restocking.
