

## Stainless Steel Transport Lids

### Steps

Before first use and in between uses, thoroughly wash and dry the lid.

#### To Apply Lid:

1. Fill compatible Vigor pan with product. Do not fill pan higher than 1" below the top of the pan.
2. Unplug the vent closure to allow air to escape.
3. Place the lid onto the pan fully horizontal. If placed at an angle, the lid will not be as secure and may cause leakage.
4. Press the lid onto the pan until the edges of the lid and pan are tight.
5. Resecure the vent closure on the top of the lid.

#### To Remove Lid:

1. Unplug the vent closure to release pressure.
2. Gently lift off the lid using the handle.

**NOTE:** These lids are only intended to work on Vigor stainless steel hotel pans of the compatible size.

Transport Lid	Size	Compatible Vigor Pan
247TGL11SS	Full Size	24711422, 24711622
