

UPGRADE YOUR MEAT

Enhanced tenderness

for a given cooking regime and original quality of meat

**Add 0.4% - 1.4% baking soda by weight of meat
to a 30 minute marinade prior to cooking**

**Bicarbonate soaking results in higher pH and water
binding rendering the connective tissue more susceptible to
heat denaturation resulting in more tender beef**

We make Arm & Hammer® Baking Soda that's the right for size any establishment

Arm & Hammer® Baking Soda

1 lbs. Box

Item #8410400
