

Modular Wall Storage & Accessories

- Storability® Modular Wall Storage is an expandable, versatile, and interchangeable wall mounted storage system, with accessories that fasten and lock securely on a 14-gauge epoxy coated steel frame system.
- Modular systems feature remarkable holding strength and provide years of heavy-duty use.
- Storability® offers a wide choice of accessory items to expand your system to any size wall space available.
- Change placement of accessories on the frame from one area to another in seconds.
- Storability® is the ideal commercial storage solution for maintenance, back room, janitorial and tool crib areas, factory floor, and more.
- Utilize empty wall space for tools, equipment, and other large and heavy items currently sitting on floors, workbenches and work areas, or in office and service areas.
- Modular design makes it easy to install, simple to expand, and cost effective.
