HUMIDITY-CONTROLLED HOT FOOD DISPLAY CASE

Holds Fried Foods Longer Than Other Cases

Humidity-extracting fans and dual heating zones keep
fried foods crispy while tastefully displayed.

Humidity-Controlled Hot Food Display Case

For fried foods that stay crispy and crunchy longer, set your sights on the Vollrath humidity-controlled hot food display case, with the capacity to hold up to four full-size steam table pans per shelf. Thanks to a discreet integrated fan system that extracts humid air, it holds chicken, sides, sandwiches, and other fried foods at proper serving temperatures while keeping items crispy, crunchy, and tastefully merchandised. Dual heating zones allow you to set the top and bottom zones independently, each with overhead radiant heat that's user-adjustable via intuitive dials, and preset shelf heat operated by each zone's power switch. Choose from humidity-extracting enclosed cases with doors on both sides, or our open-front self-serve model.
