

DURABLE FOOD STORAGE FOR
ANY COMMERCIAL KITCHEN

Square Food Storage Containers

Prep, Store, Transfer, and Serve

Easily store ingredients or fully prepared food with Vigor square food storage containers. Ideal for storing fruits and vegetables, these containers can withstand a range of temperatures and the wear and tear that comes from a commercial kitchen.

Efficient Design

Square containers provide up to 25% more storage space on shelves compared to round containers. Lids are designed in colors that match the graduation colors for added kitchen organization.

Built-In Indicators

Capacity and date/content labels allow for easy inventory management.

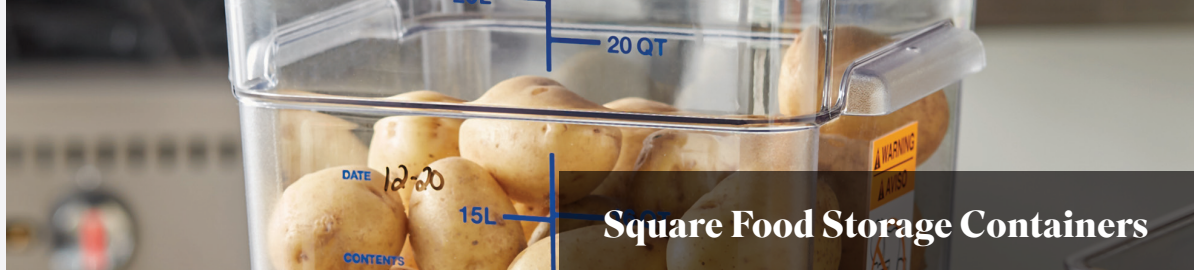

Stackable

Stacking lugs allow containers of the same size and material to be stacked when not in use to optimize storage space.

Durable Handles

Built-in handles allow for stable transportation. Drain holes in handles allow for efficient water drainage and sanitary drying.

Square Food Storage Containers

Polycarbonate (clear)

- Virtually unbreakable to guarantee longevity
- Clear material for highest visibility
- Highly resistant to food acids and oils
- -40° to 210° F temperature range

Polypropylene (translucent)

- Better durability with affordability
- Translucent color with some visibility
- BPA-free and meets NSF standards
- -40° to 160° F temperature range

Polyethylene (white)

- Most economical and flexible option
- White blocks more light, keeping food fresh
- BPA-free and meets NSF standards
- -40° to 160° F temperature range

Maximize Your Food Storage with Matching Vigor Lids

LIDS ARE AVAILABLE IN A VARIETY OF COLORS FOR COLOR-CODED SYSTEMS

BOLD GRADUATIONS
