

Warranty

PLATE-MATE® is ruggedly built for hard continuous use. However, you just might find someone tried to use it for a ladder or ran over it with a truck. PLATE-MATE® is fully warranted for one year with normal usage. Don't worry!

Parts are available to PLATE-MATE® owners everywhere. Those "thousands of pieces" are actually made in groups of three. Take off the adjusting knobs and cap (they slide out), replace what you broke and you're back in business. No service call. No real loss. No big bill.

If you have owned your Plate-Mate® less than one year, there's no bill at all. Just complete an order form, filling in your date of purchase, and we'll send off what you need right away! (Now you can do warranty registration online.)
