

PAC Strapping Products, Inc. Warranty Information

PAC Strapping Products' strapping machines (excluding strapping systems, which are covered under a separate warranty statement) are covered by a limited warranty.

The warranty period is as follows:

	Labor Warranty	Parts warranty
Semi Automatic Strappers	30 days	1 year
Arch Strappers	30 days	2 years
PAC Brand Manual Hand Tools	30 days	90 days
PAC Brand Power Tools	180 days	1 Year
Hand Tools (Other Brands)	Standard manufacturer's Warranty	

The warranty covers all defective parts and is limited to the repair and replacement of said defective parts. This warranty does not cover parts, which through normal use require replacement during the warranty period.

Pac Strapping Inc. warrants all its batteries during a period of 90 days from the shipping date document.

The manufacturer is committed to replace it with the free battery only when there are manufacturing defects that make it unfit for use.

Certain operating circumstances, such as, but not limited to, the following will void the warranty:

- Improper power supply (Inadequate or incorrect voltage)
- Incorrect strap. In order to qualify for warranty service, customers should be running PAC strap of the proper size, core, and break strength
- Problems caused by operator error
- Improper installation when not performed by PAC personnel
- Modifications made by the customer without PAC authorization

PAC makes no specific or implied warranty for fitness of use of the equipment. In the event of improper specification based on information received, PAC's liability will be limited to replacement or credit less any applicable freight charges.
