

Setup of the Totally Touchless Cutlery Dispenser

- Take the bamboo dispenser cabinet out of its shipping carton and set it up on a flat counter surface.
- Remove the packaging and outer wrapper from the bamboo cabinet.
- The cutlery towers easily slide in and out of the cabinet, so you can configure the order of the towers depending on your needs.
- Lift the cap of each tower and press the red button. This releases each specific cutlery tower.
- Follow the instructions on the bag of cutlery. Use only World Centric bagged cutlery in the dispenser.
- Load the bag to the bottom of the tower, then pull the red pull tab up to begin releasing the bag.
- Pull the cutlery bag up and out while releasing the utensils into the tower. Do not touch the utensils.
- Pull the red side trigger to release the first piece of cutlery.
- Push the tower back into the dispenser and close the cap.
- The Totally Touchless Cutlery Dispenser is ready to use.
