

## **SAFETY INFORMATION FOR NOBLE CHEMICAL, INC. SANITIZER TEST PAPERS**

Noble Chemical, Inc. test papers are classified as articles under osha regulations. Noble Chemical, Inc. test papers do not require formal material safety data sheets or certificates of analysis (under osha standard – “hazardous communications” – 29 cfr 1910.1200). They are safe for shipment by air, sea or ground transportation.

Our test papers consist of indicator dyes that have been impregnated into paper. These papers are to be used in vitro only and not to be used internally. The concentration of impregnated dye is small.

Noble Chemical, Inc. test papers consist of stable, non-reactive materials. They are non-volatile and not radioactive. Noble Chemical, Inc. test papers and their components do not contain latex, mercury, or lead. These papers can be discarded according to local environmental waste procedures and regulations.

Noble Chemical, Inc. sanitizer test papers have a shelf life of 2 years and should be stored in dry places protected from sunlight.
