

RECYCLING SOLUTIONS

RECYCLING AT A GLANCE

14 million tons of recyclables are thrown away each year.¹

75% of waste is generated in commercial facilities.²

53% of the population struggles to recycle outside of the home.³

BENEFITS OF SUCCESSFUL RECYCLING

1. SUPPORT LEGISLATION COMPLIANCE

NYC RECYCLING LAWS:

Foodservice establishments must recycle cardboard, metal, aluminum foil products, glass and plastic. All other businesses must recycle bulk metal, cardboard, and paper products.

CALIFORNIA AB341:

Businesses that produce greater than 4 cubic yards of waste must recycle.

AUSTIN UNIVERSAL ORDINANCE:

Requires all commercial properties to recycle by 2017.

EPA REDUCING FOOD SCRAPS:

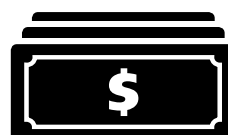

The EPA has a target to reduce food scraps in landfills by 50% by the year 2030.

2. LOWER OPERATING COSTS

Tax benefits for qualifying businesses.

Hauling fees for recycling can be less expensive than waste.

3. ACHIEVE CERTIFICATIONS

LEED CERTIFICATION

Distinguishes energy and resource-efficient buildings. Can lead to savings from increased building value, higher lease rates and decreased utility costs.

GREEN SEAL CERTIFICATION

Helps manufacturers, purchasers and consumers make responsible choices that positively impact business behavior and improve quality of life.

THE WELL BUILDING STANDARD

System for measuring, certifying, and monitoring building features that impact human health and well-being through air, water, nourishment, light, fitness, comfort and mind.

4. HELP THE ENVIRONMENT

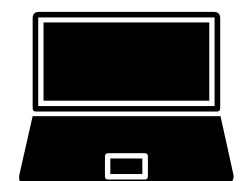

Each ton of recycled paper can save 17 trees.⁴

The average person generates 4.4 lbs of waste per day, only 1.5 lbs is recycled.⁵

Recycling 1 glass bottle can save enough electricity to light a 100-watt bulb for 4 hours.⁶

By recycling 1 aluminum can you can save enough energy to power a laptop for 11 hours.⁷

THE FULL RECYCLING SOLUTION

Building an effective recycling system requires consistent processes and products throughout your facility. In this catalog, we have outlined the two steps in the recycling task flow and have recommended the best products to facilitate each step.

COLLECTION Only RCP has the full depth and breadth of recycling products spanning across decorative, front-of-house and utilitarian, back-of-house offerings.

MOVEMENT AND DISPOSAL RCP offers a full suite of movement and disposal products to assist in the consolidation and pick up of waste streams.

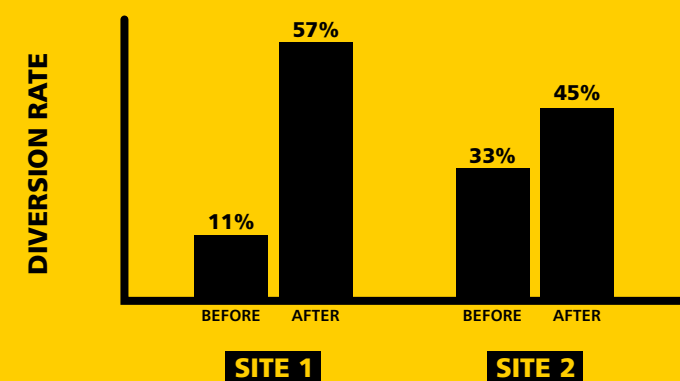

Having consistent color-coding, lid openings and waste stream labels across collection and movement products is essential to increasing recycling effectiveness. RCP has a full offering of colors in each product line, paired with intuitive lid openings and waste stream labels to make recycling easier for patrons and staff.

INCREASE RECYCLING EFFECTIVENESS

IN-FIELD STUDY YIELDED HIGH DIVERSION RATES

Improving recycling effectiveness has a positive environmental impact, helps facilities achieve sustainability initiatives and can lead to cost savings. An in-field trial that utilized colored containers, labels, and lids with stream specific openings proved to increase recycling effectiveness.

In-field Recycling Study - July 2013

RECYCLING STATIONS

Sleek designs with intuitive recycling features complement the décor of any commercial facility.

CONFIGURE™

The Configure™ decorative refuse containers provide a customizable recycling solution with sleek, smooth surfaces and contoured edges. This recycling system has a modern appearance that will fit seamlessly into any indoor or outdoor commercial environment.

FEATURES

- ▶ Magnetic connection keeps the containers arranged in the order that best fits the space – in a row or an island.
- ▶ Easy access front door and handle allow for ergonomic emptying of waste.
- ▶ Internal door hinge prevents unsightly wall damage and helps maintain a neat, clean appearance in commercial spaces.

ADA COMPLIANT

CONFIGURE™

An adaptable recycling system that can be tailored to fit any desired look and environment. Choose from single-stock SKUs, pre-configured multi-stream systems or customize your own. Start customizing today by selecting from the following options:

UTILITY COLLECTION

A wide assortment of durable utility recycling containers are available to fit seamlessly into any facility's recycling system. Choose from containers designed to fit in any commercial space, including tight spaces like janitor closets and high-traffic environments like concourses and cafeterias. All products are designed to be used in tough commercial environments, ensuring a long life.

SLIM JIM® CONTAINERS

Slim Jim® containers feature a slim, proprietary design constructed of high-quality material to fit in tight spaces and ensure a long life in tough commercial environments. Their compact size is perfect for recycling collection in office spaces, commercial kitchens, and other space-constrained environments.

Venting channels make removing liners 80% easier, improving productivity and reducing the risk of worker injury. Bag cinches secure liners around the rim of the container and allow for quick, knot-free liner changes.

Vertical and horizontal lid types are available for different container orientations.

UNTOUCHABLE® CONTAINERS

Untouchable® containers provide durable recycling solutions in any facility. Untouchable containers are perfect for recycling in central locations with larger volumes of recyclables.

An integrated liner cinch allows for bag retention and eliminates knot tying. The durable and crack resistant containers provide optimal functionality for any space.

MOVEMENT AND DISPOSAL

Tilt Trucks, BRUTE® Rollout containers, recycling carts, Slim Jim® and BRUTE® dollies and trollies bring you the most efficient solutions for transportation and disposal of multi-stream waste and recyclables.

TILT TRUCKS

Durable rotational molded tilt trucks handle large loads of recyclables with ease. Trucks are best utilized in high volume, back-of-house spaces when in transit to the dumpster or loading docks.

Label placard attachments can be installed directly to the side of a tilt truck to identify the waste stream.

Sturdy plastic construction won't rust, dent, chip or peel and is easy to clean.

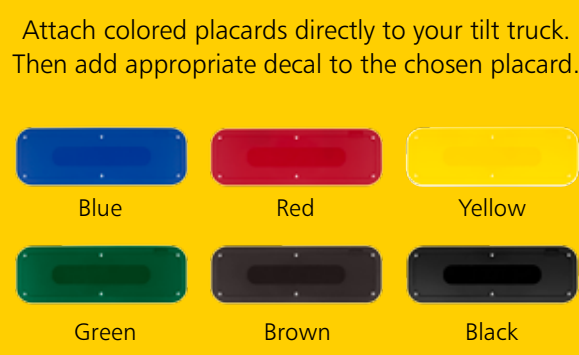

4" center, swivel back casters provide easy maneuverability.

SLIM JIM® DOLLIES

SINGLE

A variety of dolly options for Slim Jim® containers allow for more efficient collection and transport of waste and recyclables, increasing worker productivity.

MULTI-STREAM

Transport up to four waste streams with Slim Jim® dollies. For use with 16 and 23 gallon containers.

TRAINABLE

Features a side clip-on connection that allows you to train several dollies together for recycling collection and transportation. For use with 16 and 23 gallon containers.

BRUTE® DOLLIES

SINGLE

A variety of dolly options for BRUTE® containers allow for more efficient collection and transport of waste and recyclables, increasing worker productivity. 5 swivel casters allow for easy recycling transportation throughout a facility.

TANDEM

Two twist locks hold BRUTE® containers securely, allowing easy two-stream recycling collection and transportation. For use with 44 gallon containers.

TRAINABLE

Three twist locks hold BRUTE® containers securely, allowing easy three-stream recycling collection and transportation. For use with 44 gallon containers.
