product features

high-performance voice and motion control: Life is messy! That's why we develop sensor technologies that offer quicker, cleaner access to our cans. Whether you want to cut down on germs or footsteps, our goal is to remove friction and effort from the task

I hear you! Three microphones triangulate sound for voice recognition accuracy, even in loud, busy environments. Just say, "open can" — or you can say, "stay open" for longer chores then "close can" when you are finished with your task.

mini, mighty and whisper quiet: Our powerful motor is small enough to fit neatly into the hinge, so no bulky mechanics block the wide opening of the can. And at 52 dBs, it's barely a whisper.

an elegant recycling solution: Our dual compartment option makes sorting trash look good! Each side has a generous capacity, and emptying is easy with a plastic bucket on the recycling side and a liner pocket in the trash compartment.

streamlining the task: Our unique liner rim system is a faster, neater way to trash! The outer lid lifts up for easy access to the liner — no need to remove the top of the can or fumble with a clumsy bucket. When you're done, it closes over the liner to k

keep liners where you need them: Our liner pocket makes it easy to store a 20 pack of custom fit liners inside the can so you never have to search for them.
