Designed Smart

Optimum Heat for Holding Fried Foods!

- The CFHS line includes a 21" wide and a 16" wide portable models.
- The CFHS line is designed to provide the optimum heat from top and bottom to keep Fried Foods at the optimum temperature over a longer period of time.
- Top Heat is provided by a ceramic heater system that efficiently heats foods without continuing to cook them.
- Heated base provides uniform holding temperatures from below. Pre-set temperature is thermostatically controlled.
- Perforated stainless steel bins allow rising heat to envelop food, preventing soggy products.

Easy and Safe to Use!

- Units are designed to allow ample handling space between the Top Heat source and the basket holding area. Fry baskets swing in and out with ease.
- Two 40 Watt coated bulbs light up bin area, making an attractive display of product.
- Ceramic heaters have protective chrome guards, protecting employee from direct contact with elements.

Easy to Clean!

- Bins and Fry Bag Holding Ribbons lift out for easy cleaning
- Stainless steel base and sides are easy to wipe clean.

Built Solid

Built to Last

- All Stainless Steel construction withstands rigorous usage and banging from Fry Baskets and Fry scoops.
- Ceramic Heaters are constructed with stainless steel reflectors, adding additional strength against warping.

Reliability backed by APW Wyott's Warranty

- All APW Wyott Fry Holding Stations are backed by a one year parts and labor warranty.
- Certified by the following agencies:

Countertop Fry Holding Station CFHS-21

APW Wyott Design Features

- Large holding capacity for deep fried products.
- Ribbon and Bin remove for easy cleaning.
- Directional ceramic overhead heater efficiently distributes heat over food product, keeping it at optimum serving temperature.
- Pre-set thermostatic control monitors base temperature.
- Merchandising lights fully illuminate holding area.
- Enclosed area minimizes residual splatter.
- Perforated Fry Holding bin allows drainage of oil and allows heat from base to rise through food product.

Model: CFHS-16
