GENERAL DESCRIPTION:

DELIMER is a fast, versatile, effective cleaner for food service operations. DELIMER is a unique combination of synthetic detergent and inorganic acid. It rapidly penetrates and removes mineral deposits and hard water films. It cleans and brightens metals quickly and easily, saving time, work, and manpower. Yet, when used as recommended, does not chemically harm copper, iron, stainless steel, or glass.

DELIMER is formulated for multiple cleaning operations. It can be used for manually cleaning kitchen equipment such as stainless steel table tops, counters, and food preparation equipment. It is recommended for removing hard water scale deposits and is satisfactory for use on stainless steel and cast iron surfaces found in dishwashing machine tanks.

DELIMER eliminates hard water problems. It does not cloud up in hard water and leaves no film, residues, or deposits. Also, DELIMER solutions give off no fumes or odors at diluted strength and are not affected by temperature.

PHYSICAL PROPERTIES:

Chemical Composition:
Soil suspending agents, anti redeposition agents, standard acid compound, water treatment agents.

- pH 1
- pH of 1% solution 2.1
- Specific Gravity 1.13 (9.6 pounds per gallon)
- Solubility Complete and fast
- Rinsing Complete
- Viscosity Like water
- Foam Moderate
- Wetting Ability Good
- Phosphoric Acid 20%
- Stability 1 Year @ Ambient Temperature

INSTRUCTIONS FOR USE:

For brush cleaning: Dilute 1-2 oz. of product per gallon of water. Brush until clean and then rinse thoroughly with potable water.

For soak cleaning: Dilute 1-2 oz. of product per gallon of water. Soak for ten minutes and brush as needed. Rinse thoroughly with potable water.

For hard water film removal: Dilute 2-4 oz. of product per gallon of water. Brush for ten minutes or until surface is clean. Flush with potable water.

Descaling commercial dish machines: Add 2-8 oz. of product per gallon of water to wash, power rinse, and scrapper tanks depending on amount of scale to be removed. Circulate solution for ten to thirty minutes at normal machine operating temperatures. Rinse surfaces with potable water.

HANDLING PRECAUTIONS:

CAUTION - WARNING KEEP OUT OF REACH OF CHILDREN

Acidic liquid. Contact with skin and eyes may cause severe irritation. Harmful if swallowed. Flood with water if splashed in eyes. Flush with water for 15 minutes and consult a physician immediately. If ingested, drink large amounts of milk, milk of magnesia or gelatin, or if these are not available, drink large amounts of water. Do not induce vomiting. Obtain prompt medical attention.

PACKAGING:

4/1 gal plastic bottles - 38 lbs net/41 lbs gross

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
