GENERAL DESCRIPTION

BRITE GLOW is a super concentrated alkaline, built laundry detergent emulsion containing a combination of non-ionic and anionic soil emulsifying agents, along with water conditioners and fluorescent brighteners. BRIGHT GLOW is formulated without phosphates and its advanced ingredients provide superior results on all washable fabrics. It is safe for synthetic and natural fibers. BRIGHT GLOW removes stubborn soil and keeps it in suspension, preventing redeposition on fabric. There is no need for the addition of a break to the wash cycle; a three phase system with BRITE GLOW will give outstanding results. BRITE GLOW is biodegradable, rinses quickly and completely, and is effective in all water hardness conditions and temperatures.

PHYSICAL PROPERTIES:

Chemical Composition Soil suspending & rinsing agents; mineral sequestering agents for hard water conditioning; neutrally charged surfactants for effective hard water washing.

Appearance Fluorescent Yellow Emulsion

pH 13.1

pH of 1% solution 12.6

Specific Gravity 1.32 (11 lbs/gal)

Penetration Immediate

Stability 6 Months @ Ambient Temperature

Wetting Ability Excellent

Biodegradable Yes

Foam Moderate

Rinsing Complete

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

PACKAGING

2 x 2.5 Gallon Containers - 50 lbs. Net / 52 lbs. Gross

INSTRUCTIONS FOR USE:

BRIGHT GLOW is a high performance liquid laundry detergent that is specially formulated to be used with automated injector systems. BRIGHT GLOW can be dispensed directly from the shipping container, thereby eliminating hand feeding from powder hoppers and possible spillage. For normal soils, use 6 to 10 ounces per hundred pounds of work. BRIGHT GLOW is completely soluble in all normal water temperatures. For optimum soil release, use in hot (140°- 160°) water for removing normal soils. Effective soil removal, at the concentrations and temperatures given, may be obtained during a normal 6 to 10 minute wash cycle. If extreme soil conditions exist, a longer or repeat cycle may be necessary.

WARNING

Contains Sodium Hydroxide. Causes severe chemical burns. Harmful or fatal if swallowed. Eye contact may cause blindness.

CAUTION

DO NOT MIX WITH ANYTHING BUT WATER.
KEEP OUT OF REACH OF CHILDREN.
FOR INDUSTRIAL USE ONLY.

FIRST AID

EYES: Flood with water if splashed in eyes. Remove contact lenses if possible. Flush with water for 15 minutes and consult physician immediately. **EXTERNAL:** Alkaline liquid. Contact with skin may cause severe chemical burns. Avoid contact with skin. Rinse skin with water/shower. Wash contaminated clothing before reuse. **INGESTION:** Harmful if swallowed. If ingested, drink large amounts of milk, milk of magnesia or gelatin, or if these are not available, drink large amounts of water. **DO NOT** induce vomiting. Obtain prompt medical attention.
