GENERAL DESCRIPTION

LOW TEMP SAN is a sodium hypochlorite based sanitizer providing sanitation in dishmachines used in commercial and institutional foodservice operations. **LOW TEMP SAN** is a buffered product (high level of free alkali) which enhances its stability when compared to other chlorine products. Chlorine content aids in stain removal on plastic and china tableware. **LOW TEMP SAN** is safe for use on stainless steel, glass, china, porcelain, and plastic. Not recommended for use on sterling silver, silver plate, or other corrodible soft metals.
