GENERAL DESCRIPTION

SILVA LIQUID is a free-flowing liquid designed for presoaking silverware and stainless steel tableware. Its mild alkaline formula, including synthetic detergents and oxide removal agents, provides rapid penetration of food soils and discoloring films. SILVA LIQUID is extremely effective when used to remove tarnish. Its electrolytic process provides lift and scrubbing action for easy removal of tarnish. SILVA LIQUID is completely safe on silver, stainless steel and plastic.

PHYSICAL PROPERTIES:

Chemical Composition: Synthetic soil cutting and soil suspending agent; oxide.

Appearance.....	Clear Red Liquid
pH of 4% Solution	11.5
pH of 1% Solution	9.4
Specific Gravity.....	1.18 (9.8 lbs./gal.)
Stability.....	1 Year @ Ambient Temperature
Wetting Ability	Excellent
Foaming	Moderate
Solubility	Complete and Fast

PACKAGING

4 /1 gal. plastic bottles - 39 lbs. net/42 lbs. gross

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

DIRECTIONS FOR USE:

Dissolve 2-4 ounces of product per gallon of hot water in a plastic container. To pre-soak, let tableware soak in solution for 5-10 minutes. Wash and rinse as normal prior to use.

To remove tarnish from silver, line soaking container with aluminum foil. Silverware must be in contact with aluminum to de-tarnish. Dissolve 2-4 ounces of product per gallon of hot water covering silver entirely. When de-tarnishing knives, place them in solution in such a way that the blades (all those made of stainless steel) do not contact the aluminum directly. Let stand 10-15 minutes, wash and rinse as normal prior to use. Do not leave silverware in solution for longer periods, as the aluminates formed may deposit on the ware.

WARNING

KEEP OUT OF REACH OF CHILDREN

CAUTION: ALKALINE LIQUID. MAY BE HARMFUL IF SWALLOWED. CONTACT WITH SKIN AND EYES MAY CAUSE SEVERE IRRITATION.

FIRST AID:

EYES: Flood with water if splashed in eyes. Flush with water for 15 minutes and consult physician immediately.
EXTERNAL: If on skin, wash with plenty of soap and water. If irritation occurs, seek medical attention.
INGESTION: Harmful if swallowed. If ingested, drink large amounts of milk, milk of magnesia or gelatin, or if these are not available, drink large amounts of water. **DO NOT** induce vomiting. Obtain prompt medical attention.
