GENERAL DESCRIPTION

WASH BRITE is a concentrated, highly alkaline laundry detergent containing a specific blend of soil emulsifying agents. WASH BRITE is formulated with advanced optical brighteners which provide superior results on all washable fabrics and is safe for synthetic and natural fibers. WASH BRITE removes stubborn soil and keeps it in suspension, preventing redeposition on fabric. WASH BRITE rinses quickly and completely, and is effective in all water hardness conditions and temperatures. WASH BRITE is biodegradable.

PHYSICAL PROPERTIES:

Soil suspending & rinsing agents; mineral sequestering agents for hard water conditioning; neutrally charged surfactants for effective hard water washing.

Appearance.....	Clear Amber Liquid
pH of 4% Solution	12.5
pH of 1% Solution	11.8
Specific Gravity.....	1.07 (8.95 lbs./gal)
Penetration.....	Immediate
Stability.....	3 Months @ Ambient Temperature
Wetting Ability	Excellent
Biodegradable.....	Yes
Foam.....	Moderate
Rinsing.....	Complete
Odor.....	Pleasant

PACKAGING

2 x 2.5 gal. plastic pail - 50 lbs. net

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

DIRECTIONS FOR USE:

WASH BRITE Liquid Laundry Detergent is specially formulated to be used with automated injector systems. WASH BRITE can be dispensed directly from the shipping container, thereby eliminating hand feeding from powder hoppers and possible spillage. For normal soils, use 8 to 12 ounces per hundred pounds of work. WASH BRITE is completely soluble in all normal water temperatures. For optimum soil release, use in hot (140°F to 160°F) water for removing normal soils. Effective soil removal, at the concentrations and temperatures given, may be obtained during a normal 6 to 10 minute wash cycle. If extreme soil conditions exist, a longer or repeat cycle may be necessary.

WARNING

KEEP OUT OF REACH OF CHILDREN.

CAUTION: ALKALINE LIQUID. MAY BE HARMFUL IF SWALLOWED. CONTACT WITH SKIN AND EYES MAY CAUSE SEVERE IRRITATION.

FIRST AID:

EYES: Flood with water if splashed in eyes. Flush with water for 15 minutes and consult physician immediately.
EXTERNAL: If on skin, wash with plenty of soap and water. If irritation occurs, seek medical attention.
INGESTION: Harmful if swallowed. If ingested, drink large amounts of milk, milk of magnesia or gelatin, or if these are not available, drink large amounts of water. **DO NOT** induce vomiting. Obtain prompt medical attention.
