**Products UPC: 095879310510**

**Model Number: 1500A P01050**

The P01050 1500A pressure washer is equipped with a heavy duty motor that is totally enclosed powering an industrial triplex plunger pump with ceramic plungers and stainless steel valves. Pump is protected by an unloader valve and a thermal relief valve. The Thermal relief will open when water temperature exceeds 140 degrees F, protecting your water seals if you leave the machine in bypass (trigger gun closed) too long and water temperature climbs. The thermal relief resets as cooler water comes into the pump. This 1450 PSI pressure washer is equipped with low pressure chemical injection for application of concentrated liquid detergents and is activated by a hi-low pressure adjustable nozzle on

the trigger gun. 120 Volt dedicated circuit required, machine has a NEMA 5-20P Plug.

### **1500A P01050 Product Specifications**

- **Water Type:** Cold
- **Powered By:** Electric Motor
- **Mounting Type:** Hand Carry
- **Flow Rate in GPM / LPM:** 2 / 7.6
- **Horsepower:** 2
- **Product Dimensions:** 18" x 12" x 11"
- **Voltage / Amperage / Phase:** 120 Volt / 20 Amp / 1
- **Pump Thermal Protection:** Mechanical
- **Max Pump Inlet Water Temp:** 140° F
- **Hose Dimension:** 25' x 5/16"
- **Power Cord:** 35' cord, 120 Volt / 20 amp GFCI
- **Ship Weight:** 70
- **Pressure in PSI / Bar:** 1450 / 100
  
- **UPC:** 095879310510
