

The Shoreline Meal Delivery Collection

Job _____

Features & Benefits

- Cambro's Shoreline meal delivery collection features a contemporary look, high performance, and unequalled safety at a budget-friendly price.
- Collection includes a 5-ounce bowl, 9-ounce bowl, 8-ounce mug, an insulated dome, thermal pellet and pellet underliner.
- Disposable lids are available for the mug and both bowls.
A drink-through sip lid is also available for the mug.
- The heart of the system is a 9 1/2" high-density plastic warming pellet that can be heated in a convection pellet heater.
- Thermal pellet holds heat at its core to keep hot foods at safe temperatures, yet its edge stays 20° cooler than that of metal pellets, protecting patients from burns.
- Plastic pellet won't chip or dent like metal pellets.
- To heat pellets, stack in a convection pellet heater for 3 hours at 290°F (143°C).
- Dome cover features an ergonomic handle for easy lifting and polyurethane foam insulation for maximum temperature retention.
- Pellet Underliner holds pellet securely and protects patients from hot surfaces.
- Shoreline bowls and mugs are constructed of high-heat polypropylene designed to withstand temperatures of up to 220°F (104°C).
- All components except disposable lids are dishwasher safe.
- Not designed for use in microwave or with induction heating systems.
- Available in 4 colors.
