- Pumps 1 pint per stroke.
- Rugged cast iron pump and steel Drip Pan construction.
- 47" 3 piece plated suction tube (assembled).
- Neoprene seals.
- Self-priming.
- UPS shippable.
- #272211 Drip Pan included

Application Information (For Rotary and Lever Pumps): Wesco® iron drum pumps have wetted parts fabricated from phenolic (270021 & 272212 only), and neoprene (272210 only) materials. These pumps were designed primarily for oil products. It should be noted that these pumps can only be used for chemicals which are compatible with phenolic and neoprene. We recommend that if a question arises, the user contact the supplier of chemicals to determine compatibility with those chemicals. Wesco® is unable to offer specific recommendations for chemical usage.
