PART NO. 272211, DRIP PAN

- For installation on pumps with metal suction tube.
- Cast iron and steel construction.
- Hinged cover and bung/ suction adapter.

Application Information (For Rotary and Lever Pumps): Wesco® iron drum pumps have wetted parts of steel, phenolic (270021 & 272212 only), and neoprene (272210 only) materials. These pumps were designed for the transfer of fuel oil products. It should be noted that these pumps can only be used for chemicals which are compatible with iron, steel, neoprene and phenolic. We recommend that if a question arises, the user contact the supplier to determine if these pumps are compatible with those chemicals. Wesco® is unable to offer specific recommendations for chemical usage.

Specifications
