***Testing Requirements ***

1. Capacity test: Fill measuring cup with (capacity amount) of water and pour into container. Water should not exceed the measuring line.

2. Visual Test: Ensure there is no dents, dirty marks, scratches, black marks, etc on product.

3. Wobble Test: Put on flat surface and make sure it does not wobble or spin.

4. Lid Fit Test: Place lid on container to insure it fits well. 3052-L must fit 3052-B.

5. Edge Check: Run finger along product to ensure there are no sharp, pointed, jagged, or excess material on product.

6. Spill Check: Fill gallon with water. Mix water around. Container should stay flat on the ground.
