3M's highest attenuation earmuffs

3M™ Peltor™ Earmuff X5

New groundbreaking technology allows 3M Peltor X5 earmuffs to provide very high noise reduction in both standard headband and hard hat-attached models.

- » Unique attenuation as a result of optimum combination of specially-formulated foam featured in the earcups, cushions and the innovative spacer and cup design.
- » Despite the larger earcups, the X5 remains relatively lightweight with excellent balance and comfort.

Magnus Forsblom, Astra Zeneca 3M PELTOR X and COMFORT

"I don't care about specific brands, I just want the best. The best? It's 3M Peltor!"

Magnus Forsblom, Astra Zeneca
Responsible for PPE (Personal Protection Equipment)
at a factory with 1700 workers.

"The noise at my work is not constant but intermittent and gets higher around specific machines at the industrial floor. Every single aspect of protection and safety is very important to me. We have specific demands apart from comfort, for example that the earmuffs are easy to clean. It is also very important that there is no risk for loose parts falling from the earmuffs into the production line.

"3M Peltor X Earmuffs are comfortable to wear – I feel no pressure on my head and they are not too tight. They are durable and easy to clean frequently. I tried the 3M Peltor X Earmuffs. They are easy to adjust, have a good solid design, look and feel good while you're wearing them – features that make them very appealing and easier to use on a regular basis. Compared to other earmuffs, it's like night and day.
