with HOT
Extracting
Solution!*

CH83005

Design and Engineering Features:

- The spot extractor heats extracting solution to 200°F with a 600 watt in-line heater. The steel heater chassis is mounted in its own roto-molded tank and frame. Carpet, rug and upholstery cleaning is fast and safe!
- A 55 psi pump delivers heated extracting solution into the carpet. The 2-stage Ametek® 800 watt, 100 CFM vacuum motor recovers the spent solutions and soils.
- 20 foot safety power cord, 16/3 Ga.
- Modular tank design. Lift off the 3-gallon recovery tank and fill the 3-gallon solution tank with your mixture of extracting shampoo and water.
- Double ball-bearing urethane wheels and the red slide-out carrying handle makes transport easy.
- Includes a 4" wide stainless-steel upholstery tool and 1.25" diameter x 15' long vacuum and solution hoses.
- Lifetime warranty on roto-molded tanks. 5 years on motor and electrical parts.

Specifications

Model No.	CH83005
Tanks	Roto-Molded Polyethylene, 3-Gallon Solution and 3-Gallon Recovery Tank Capacity
Solution Pump	55 psi
Vacuum Motor	2-Stage Ametek® 800 Watt / 100 CFM
In-Line Heater	600 Watt Steel Heater
Hoses and Tools	1.25" x 15' Solution and Vac Hoses 4 Inch Wide Stainless Steel Upholstery Tool
Power Cord	20 Foot Safety Cord, 16/3 Ga.
Dimensions	21" L x 10" W x 24" H
Warranty	Roto-Molded Body: Lifetime Motor and Electrical Parts: 5 Years
Shipping Weight	42 lbs.
