

GROUND COMMAND™

6-Gallon / 100 psi Carpet Extractor

Design and Engineering Features:

- Designed for the lighter industrial carpet cleaning tasks with a 100 psi solution pump.
- A powerful 3-stage vacuum motor delivers 117 inches of water lift for fastest carpet drying. The motor stays cooler with an innovative air flow design. Single 25 foot long safety power cord.
- Model CH83015 has an in-line heater that lets you extract with 200° F solution.

In-Line Heater
200° F Solutions
Model CH83015

- The extractor has an easy-fill 6 gallon solution tank and the "Quick-Dump" 6 gallon recovery tank.
- Convenient waist-height controls make operation easy with no bending or lifting.
- The optional wand kit CH08301 includes a strong stainless steel wand with a 9" vacuum head and one powerful spray jet, and 25-ft. flexible vacuum and solution hoses.
- Non-skid, non-marring 10" transport wheels for easy stair climbing.

- Lifetime warranty on molded tanks. 2 years on motors, pumps and 1 year electrical components.

*Fast, Efficient,
Deep Carpet Extracting*
