

## Always in Reach Never Lost

Nothing scares away predators like a loud, shrill whistle. Protect your loved ones with sound that can be heard up to a mile away!

The Whistle Safe Open-Carry Whistle provides you and your loved ones the assurance of being able to be heard when threatened, lost or in trouble.

A convenient carabiner attachment easily transfers to belt loops and purses so it can follow them wherever they go. The 24" retractable cord makes sure it's always handy and accessible when needed.

Great for teachers, referees, coaches, and boating safety, too!

# Whistle Safe
