

## 55 Gallon Drum Containment Dolly, Yellow, Plastic - 1617Y

### Product Images

## Short Description

---

- Durable yet lightweight yellow HDPE construction
- Protects against spills and leaks while transporting 55-gallon drums
- Tilts for easy dispensing operations
- 70 gallon sump with drain plug
- Ergonomically designed for easy use

## Description

---

The Eagle 55 Gallon Drum Containment Dolly, model 1617Y, is a durable drum dolly designed to safely transport and contain 55-gallon drums that may contain hazardous materials. Though designed to act as its own secondary containment unit, it can also tilt to become a self-dispensing unit, further enhancing its convenience and functionality. The lightweight, user-friendly design with molded, rounded handles makes it

simple to maneuver and tilt.

Constructed from high-density polyethylene (HDPE), the plastic drum dolly is resistant to chemicals, rust, and corrosion. Its yellow color is identifiable in the workplace as hazardous material handling equipment, and the low profile makes loading and unloading drums easy.

## Drum Containment Dolly Functionality

Featuring a lightweight design of only 98 lbs. (44.45 kgs) the Eagle Spill Containment Drum Dolly model 1617Y provides a safe and stable base for transporting and storing drums, which includes a 2-in black strap with a double buckle to ensure secure transport. Its 70-gallon sump provides necessary secondary containment and features a drain plug for draining and disposal operations. Extra-large 10-in (25.4 cm) poly wheels roll easily over uneven surfaces and support loads of up to 600 lbs. Forkliftable from the rear, this 55-gallon drum containment dolly offers an extremely efficient and safe method for moving heavy drums around the workplace.

## Plastic Drum Dolly Applications

The Eagle drum containment dolly model 1617Y can be used to safely move drums from one location to another, as well as to store them in a secure and stable position. Suitable for a variety of industries, including chemical, pharmaceutical and petroleum, it is commonly used in warehouses, factories, and laboratories to transport and store hazardous materials such as chemicals, solvents, and oils.

When not in use or when storing outdoors, use the [Eagle spill containment drum dolly tarp cover, model T8609](#). The tarp helps prevent contamination of drums and the sump area from rainwater and debris. The bottom is elasticized with adjustable straps. It includes a document pouch for information such as SDS sheet and other documents.

# Specifications

Model No	1617Y
Color	Yellow
UPC	048441008551
Gallon Capacity	70
Liter Capacity	265
Load Capacity, lbs	600
Load Capacity, kgs	272.2
Drain	Yes
Fork Pockets	Yes
Sump Capacity, gallons	70
Sump Capacity, liters	264.98
Material Specifications	High-Density-Polyethylene
Dimensions, Exterior	31.75W x 69D x 26.5H
Pallet Quantity	1
Net Weight, lbs	98
Net Weight, kgs	44.45
