

***Stainless Steel Table with
Removable Acetal Top***

Superior by Design

Stainless steel tables reimaged and re-engineered from the ground up to eliminate tubular frames and hollow components.

Always Stainless

High quality materials result in high quality products for sanitary environments.

Fully Formed

No tubing or hollow components whatsoever, eliminating areas for bacteria and contaminants to harbor.

Simple Sanitation

Engineered with sanitation and maintenance teams in mind. Simple designs mean simple, less time-consuming sanitation.

Tops

Tables ship complete with $\frac{1}{2}$ " thick white acetal tops.

Durable

Built to withstand prolonged use and harsh routine sanitation.

Top

Formed tabs around the perimeter of the top of the frame allows for the customer to place desired removable working surface. Our patented design eliminates all closed channels and requires no nuts, bolts, or threads for assembly.

Frame

The frame is constructed of 11 gauge / 304 stainless steel and utilizes completely formed components (no tubular or hollow components). The frame is TIG welded complete and the table is fully assembled.

Finish

All components receive a dual-action medium Scotch-Brite finish and all welds are passivated.

Removable Tops

Tables ship complete with $\frac{1}{2}$ " thick white acetal tops.

Footing Options

- Paw Print (SSL-1002)
- Casters (SSL-1002-C)

Shipping

All tables ship LTL/FTL
