

 **CRESCENT**®

Acetate Handle Screwdrivers

Trusted by the Trades.

Shaped for Power. Made to Last.

This line of screwdrivers and nutdrivers features tri-lobe handles designed to transfer maximum torque. The extruded translucent acetate used for the handles is specially formulated to provide superior impact and UV resistance and is easy to wipe clean. Magnetized tips make starting and retrieving screws in hard-to-reach areas easier. Blades are chrome plated for superior resistance against rust and corrosion. Color coding (Blue for Phillips®, Red for Slotted, Black for Torx®, and Multicolor for Nutdrivers) makes driver selection simple.
