

Details For Model: IBC-TLT-FPL-SS

Stainless Steel Intermediate Bulk Container Tilt Stand with Fork Pockets and Adjustable Legs 49-3/4 In. x 50-1/2 In. 4400 Lb. Capacity Silver

An intermediate bulk container tilt support stand is designed to provide a secure tilting of containers for complete draining. The adjustable height of the stand allows for easy access to valve connections and minimizes user bending and twisting. To use, simply place the container on the stand. When the container is in the secure position, start the draining process. As the fluid flows from the container, the rear of the stand platform will rise up creating an angle for a better release of fluids.

- Tilt rises as weight diminishes
- Easily cleanable, stainless steel construction
- Built in fork pockets
- Pre-drilled mounting holes

Dimensions: 48"W x 49.5"L x 35.25"H	Sell UOM: EA-Each	Color: Silver
