

# HIVE CAFE™ SPECIFICATIONS

# HIVE CAFE™

This entry-level, yet highly capable brewer can craft Espresso Replacement Concentrate, Specialty Grade Cold Brew for your tap, or concentrated coffee for culinary needs.

Take advantage of Accelerated Cold Extraction technology to free up time for staff, maximize ROI, and most importantly, make great tasting coffee.

## Superior Cup Quality

Accelerated Cold Extraction delivers top shelf brew quality with exceptional complexity and clarity.

## Maximize Output with Higher Yields

Get up to 20% more yield when compared to bucket immersion brewing

## 30 Minute Brew Times

A total game changer: better quality in a fraction of the time

## Reduce Labor Costs

Simplify your workflow with minimal hands-on time

1 gal. stainless steel water reservoir with adjustable flow rate

Hexagonal HIVE Brew Dispersion Plate

3 or 6 lb. HIVE Brewing Chamber with Reusable Stainless Lock-in Filter

Support assembly

4 gal. collection chamber with tap

HIVE Café 3

## COMPARISON
