

# AQUAKING 10

#790FILTER10 KIT

## 10" Single Cartridge Water Filtration System

Food Service System Housing for Drop-In Cartridges

### Features

- 10" low profile slim line single bowl housing made from durable polypropylene for excellent chemical resistance
- Equipped with a pressure relief button to relieve water pressure during cartridge changes
- Includes 9 3/4" granular activated carbon/phosphate drop-in cartridge (item #790PSC10)
- Includes wall mounting bracket
- Shipped fully assembled

### Applications

- Designed specifically for ice machines with an output of up to 500 lbs, but also ideal for countertop equipment and small beverage equipment.
- For use with pre-filtered water, or where sediment is not present
- Improves water's taste and filters out scale and odors.

### Technical Data

Dimensions	9 3/8"W x 5 3/4"D x 14 1/2"H
Inlet Connection	1/2"
Outlet Connection	1/2"
NPT Ports	Female
Opaque Housing	Polypropylene
Cap	Polypropylene
Maximum Temperature	125°F (51.7°C)
Maximum Pressure	75 PSI (5.17 bar)

### Installation & Operation Tips

- Choose a mounting location suitable to support the full weight of the system when operating
- Install vertically so bowl hangs down
- Make sure O-ring is sufficiently lubricated
- Always screw on bowls by hand; never tighten with a housing wrench
- Change cartridges on a 6 month preventative maintenance program
- Clean bowl with mild solution of detergent before inserting new cartridge
- Always flush the filter cartridge at time of installation and cartridge change
