Product Notes

Packaging Details

An easy peel UPC is applied to the underside of each unit, which is then placed into a polybag (taped or heat sealed). Poly bags with an opening larger than 5"/12.70cm require two punched holes and a multilingual suffocation warning. There are 3 each per 5-ply inner carton which are separated by a polyfoam sheet, and 6 per 5-ply master carton. Two UPC labels are applied to adjacent corners of each inner and master carton.
