≡ FEATURES & BENEFITS ≡

- Hydrocarbon refrigerants (R-600a)**
 With innovative and eco-friendly technology, Turbo Air brings you hydro-carbon refrigerators designed to meet the new standards of the EPA and DOE in 2017. Hydrocarbon refrigerants do not deplete the ozone layer and have very low contribution to global warming (ODP-0, GWP-3).
- Double pane glass doors with Low-E glass**
 Energy saving double pane glass doors are equipped with Low-emissivity glass, which reduces outer heat gain and decreases energy consumption. It enhances energy efficiency and minimizes condensation. Lightweight door construction also reduces door maintenance and bushing wear, which in turn facilitates smoother door opening.
- High-density polyurethane insulation**
 The entire cabinet structure is foamed-in-place using high density, CFC free polyurethane insulation.
- LED lighting interior**
- Refrigerator holds 33°F ~ 38°F for the best in food preservation**
