Milk Coolers - Dual Sided Door

Milk Coolers
 Super Deluxe Series

Model : TMKC-34-2-WS(SS)-N6

TMKC-34-2-WS-N6

TMKC-34-2-SS-N6

FEATURES & BENEFITS

■ **Hydrocarbon refrigerants (R-600a)**

With innovative and eco-friendly technology, Turbo Air brings you hydrocarbon refrigerators designed to meet DOE's Energy Conservation Standards in 2017 and to use EPA's SNAP Program approved HC refrigerants. Hydrocarbon refrigerants do not deplete the ozone layer and have very low contribution to global warming (ODP-0, GWP-3).

■ **Convenient bottom floor drain standard with hose adapter**

Floor drain is located in the rear on the right hand side for easy clean out. The hose adapter allows for convenient connecting to drain hose.

■ **5 years cleaning-free condenser**

1/5" condenser pin gaps and electrodeposition coating allow the condenser to stay clean and prevent it from becoming tarnished, further guaranteeing the durability of the condenser.

■ **Sturdy and clean, durable cabinet construction**

Exterior is stainless steel or white coated steel with stainless steel door. Interior is comprised of stainless steel.

■ **Exterior digital thermometer standard for easy visibility**

Exterior digital temperature display allows easy reading and precise and constant temperature. This level of precision allows milk to remain fresh and safe over an extended period of time.

■ **High-density polyurethane insulation**

The entire cabinet construction is foamed-in-place using high density, environmental friendly CFC free polyurethane insulation.

■ **Stainless steel self-service doors have drop front feature and hold-open flip-up top lid**

■ **4" dia. swivel casters standard for easy movement, two with brakes to lock the unit in place**

■ **Refrigerator holds 33°F ~ 38°F for the best in milk preservation**
