

Vermette Keg Jockey

**STACK & PACK
MORE BEER KEGS**
faster and easier,
using less space in
your walk-in cooler
with...

...and have less employee back problems, because Keg Jockey does all the heavy moving and lifting. Equipped with 10" semi-pneumatic tires and 3" swivel casters and with an overall height of 69.5" and width of 27.25", the unit passes easily through doorways. A needle roller bearing winch provides smooth, easy operation. Unique lift hook lifts the keg from the top, so that it may be placed directly on the lower keg when stacking. The Keg Jockey has a 400 lb. lifting capacity.
