

Buffet Station Care and Use Instructions

BUFFET STATION USE

- Always use buffet stations on a flat and level surface.
- Always use only Vollrath wire grills, griddle pans, and replacement parts designed to be used with buffet stations.
- **Gel fuel may be used provided caution is used and the manufacture's instructions are followed.**
- **Vollrath electric chafer heaters can be used with the griddle pans designed for these products. Sold Separately.**
- Food pans are to be centered over the buffet stations.
- Use caution if pans, platters or trays extend beyond the edges of the buffet station top.
- Buffet stations are not intended to be used in stacked configurations for serving applications.
- Always verify stable placement of articles on buffet stations before leaving unattended.

BUFFET STATION CARE, CLEANING, AND STORAGE

- Before using for the first time, remove all labels and wash in hot soapy water to remove any manufacturing lubricants or residue on the new item.
- If label adhesive remains on product, wipe off with WD-40® and clean with warm soapy water.
- Do not use ammonia based cleaners. Do not use abrasive materials, scratching cleansers or scouring pad to clean the unit. These can damage the finish.
- Vollrath recommends that after each use hand wash item with hot soapy water and rinse thoroughly. Dry immediately after washing.
- Store items in an organized manner to avoid dents and scratches.
- Salt solutions, acidic products like tomatoes, disinfectants, or bleaches can corrode finishes.

SPARE PARTS

Part Number	Description
25030	Small Wire Grill, 16"
