

CDM 5 K

COMMERCIAL CUTLERY DRYER/POLISHER
SANITIZER

5,000 PIECES/HOUR

Efficient Cutlery Cleaning for Restaurants and Catering Businesses

Introducing the SilverShine™ CDM-5K, the ultimate solution for efficiently polishing and drying cutlery in high-volume settings such as restaurants, banquet halls, event rental companies, casinos, hotels, and convention centers. This state-of-the-art machine is designed to handle up to 5,000 pieces of flatware per hour, ensuring your cutlery is always spotless and ready for service.

UV-C Sanitization for Enhanced Hygiene and Food Safety

Key Features:

- **SilverShine™ Technology:** ensures spotless, consistent cutlery for an enhanced guest experience.
- **High-Volume Capacity:** Processes up to 5,000 pieces per hour — ideal for large venues and reducing labor.
- **Award-Winning Design:** Recipient of the Kitchen Innovations 2007 Award from the NRA for outstanding performance and innovation.

About Us

Campus Products is a family-owned U.S. company offering innovative equipment for the foodservice industry. Our solutions improve hygiene, reduce labor, and enhance presentation. Trusted by restaurants, caterers, and hospitality professionals nationwide.

CDM 5 K

COMMERCIAL CUTLERY DRYER/POLISHER
SANITIZER
