Pancakes*	48	700						
Eggs*	58	1000						
* Not applicable to grooved surface								
Weights:	Lbs.	KG						
Installed	272	123						
Shipping	292	132						

Wells G-236 Built-In Griddle is ideal for any kitchen based on its versatile, easy-to-use design. In addition to the standard grill surface there are two options to choose from, grooved or chrome-plated. The four positive-off thermostats allow individual zone control. The oversized grease drawer is easily removable for cleaning.

Features

- Each individual positive-off thermostat controls one-fourth of the cooking surface.
- Enclosed tubular elements are clamped onto the ½" thick griddle plate to provide even heat distribution over the entire surface.
- Removable splashguard makes clean up easier.
- The removable front grease drawer has a four-quart capacity.
- Controls are recessed in one-piece, drawn, stainless steel panel to help prevent accidental temperature changes.
- Wellslok allows for quick and easy installation in stainless steel countertops.
- A terminal block is provided for field wiring connection to the main power supply.
- The G-236 Griddle is Underwriters Laboratories, Inc. recognized and meets NSF International standards.
- A one-year warranty against defects covers parts and labor.

Accessories / Options

Chrome-plated griddle surface, allows more efficient heat transfer throughout the cooking area, available by special order.

Grooved griddle surface, 3/4-inch thick ribbed steel plate that allows for the "branding" of meat products, available by special order.

Export

The following models are available for export and meet the standards for **CE**:

- G-236EU, 380-415V, 3NAC, 26 KW, 19MM thick plate
- PG-236EU, chrome plate, 380-415V, 3NAC, 16 KW, 19MM thick plate
