## Upright Vacuums

### Price, Performance and Proven Durability

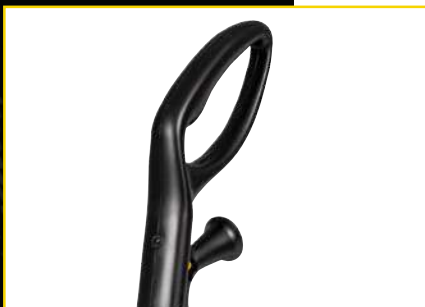

The CK 14/1 provides price, performance, and proven durability to Tornado's impressive lineup of industry leading commercial upright carpet vacuums. Constructed with extremely durable polypropylene and metal construction materials, the unit tackles tough cleaning tasks, with tested and certified performance. Equipped with HEPA filtration, the CK 14/1 is designed to contain fine particulate and dust, improving indoor air quality (IAQ) and reducing risks associated with the redistribution of potentially harmful particles and allergens. With on-board tools, the CK 14/1 Pro's powerful suction is ready at your fingertips for above-floor cleaning. Or, if you would prefer, the vacuum is now available without the on-board tools as the CK 14/1 BSE. The CK 14/1 Pro and BSE are flexible, reliable, and perfect for use in a variety of indoor environments

Simple slide-in design, making torn filters a thing of the past
